DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-24, 26-30, 33-41, 46-52, 54-59, drawn to a heat exchanging systems and methods of using the systems, classified in class 392, subclass 466.
- II. Claim 25, 32, 42-45, drawn to a heat exchanging system having a storing element, classified in class 392, subclass 467.
- III. Claim 53, drawn to a method of heat exchanging, classified in class 392, subclass 474.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method claimed can be performed by a different apparatus since the apparatus and systems of claim 25, 32, 42-45 require a storing element for storing heat and a heating element for heating the storing element, and the claims of invention I do not require the storing element.

Inventions II and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method of claim 53 requires structure not present in apparatus and methods of claims 25, 32, 42-45.

Art Unit: 3742

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
